User Stories (revised)

The ID is the same as the story number in *MPowered Acceptance Criteria (revised)*. US1 to US12 are unchanged. US13 was reworded. US14 and US15 were US15 and US16 in the first list. US16 to US23 are new.

ID	As a	I want to (sub-story)	Story
US1	Patient	Enter personal details	I want to enter my name, sex, year of birth and health conditions so that the app can personalise my experience.
US2	Patient	Secure phone login	I want to log in using my phone number and one-time verification code so that my account is secure.
US3	Patient	Complete pain assessment	I want to record my pain location, characteristics and intensity each week so that I can track changes in my condition.
US4	Patient	View assessment summary	I want to see a summary after completing my pain assessment so that I understand what I reported.
US5	Patient	Complete movement assessment	I want to answer questions about my movement abilities so that I can understand how pain affects my movement.
US6	Patient	Record personal care impacts	I want to record how pain affects my general activities, personal care and sleep so that I can reflect on my self-management.
US7	Patient	Record social health impacts	I want to record impacts on my social life, travel, mood and relationships so that I can understand pain's effect on my wellbeing.
US8	Patient	Track medications, exercise and	I want to log my medications, exercise and emotional-management strategies

		management strategies	so that I can track my self-management efforts.
US9	Patient	Generate and export health profile	I want a generated pain profile that I can print or share as a PDF so that my healthcare team has an accurate picture of my condition.
US10	Patient	Track pain trends and history	I want to view a chart and history of my pain intensity by location so that I can monitor trends over time.
US11	Patient	Manage prescriptions	I want to add, edit and delete my prescriptions so that my medication list stays accurate.
US12	Patient	Plan healthcare appointment	I want to plan an appointment by recording the date, healthcare practitioner and service type so that I am organised ahead of my visit.
US13	Patient	Manage support people	I want to add support people and choose what they can do so that someone I trust can help me with my health journey.
US14	Patient	Generate appointment questions	I want the app to suggest questions based on my self-assessment answers so that I can make the most of my appointment.
US15	Patient	Record healthcare practitioner's answers	I want to record my healthcare practitioner's answers by typing or a voice recording, after obtaining their consent, so that I can review the advice later.
US16	Patient	Enter phone number	I want to enter my Australian mobile number so that I can receive a verification code.
US17	Patient	Manage account details	I want to update my name and health conditions so that my profile stays correct.

US18	Patient	Manage notification settings	I want to turn weekly and appointment reminders on or off so that I only get the reminders I want.
US19	Patient	Change display settings	I want to change the text size so that the app is easier for me to read.
US20	Patient	Log out	I want to log out so that nobody else can see my information on my device.
US21	Patient	Change phone number	I want to change the phone number linked to my account so that I can keep using the app if my number changes.
US22	Patient	Set or change password	I want to set or change a password so that I can use it to verify my identity in Settings.
US23	Patient	Get help and support	I want to find contact details and a contact form for Musculoskeletal Health Australia so that I can ask for help.
